OPENSHAW
MANCHESTER
M11 2ER

Statement regarding “Substances of Very High Concern” (SVHC’s) as defined in the REACH regulations and Directive 2011/65/EU.

If an article contains one or more Substances of Very High Concern (SVHC) as included in the Candidate List, published on the ECHA website, http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp

ECHA **must** be notified if **all** the following criteria are met:

1. The substance is present in these articles in quantities greater than 1 tonne per producer, or importer, per year
2. The substance is present in these articles in a concentration higher than 0.1% weight by weight
3. The producer, or importer, cannot exclude the exposure to humans, or the environment, under normal or reasonable foreseeable conditions of use throughout the life cycle, including disposal
4. The substance has not already been registered for that use.

Haynes International Inc. states that currently NO SVHC’s or notifiable substances are contained within worked products sold by the company.

Haynes International Inc. is aware of its duties under the REACH regulations to continually review the SVHC Candidates and Substance list and to inform and communicate with those companies in the supply chain to enable access to the required substance information for the protection of workers and the environment.

Please contact this office if further information is required.

Regards

Environmental Department
