Zip Code: 46350

Attention: Mr. Jeff Sipf - Manager, Quality Assurance

Subject: Pratt & Whitney Source Qualification List (SQL)- Limited Approval.

Dear Mr. Sipf:

Pratt & Whitney (P&W) is pleased to inform you that your company is qualified, in limited scope, as a source to perform work in accordance with the following specification(s):

- **PWA 119, “ HOLE DRILLING OR CUTTING BY ELECTRON BEAM OR LASER BEAM METAL REMOVAL ”**
 - ✓ **Suffix 1; “LBMR permitted, no subsequent treatment required.”**
- **Limited To Non-Hardenable Ni and Ni Base Alloys.**

This authorization now forms a part of our Source Qualification List (SQL) of approved suppliers.

Please be aware that P&W Materials Control Laboratory (MCL) Manual “F” Sections establish the controls for chemical and metallurgical processing performed by P&W qualified sources. Compliance with these controls and other applicable specifications is necessary for continued qualification. Maintaining facilities, procedures, equipment, personnel and controls to P&W standards, as determined by our periodic surveys and our routine testing of your product, is critical to your approved status, as well.

Process approval does not relieve qualified source of responsibility for conformance to all applicable drawing and purchase order requirements.

Should you have any questions or concerns, please don't hesitate to contact your local P&W Q&PE Supplier Metallurgical Control (SMC) Specialist.

Congratulations and our expectations are for your continued success.

Sincerely,

Peter E. Simos
