For the attention of: The Quality Authority

Dear Sir / Madam,

BAE Systems - Air Supplier Quality Approval Letter

This is a BAE Systems – Air, Supplier Quality Approval; this Approval covers Contracts / Purchase Orders placed directly or indirectly by BAE Systems - Air. **This approval is valid from the date of signature until 31st August, 2027** and is limited to the scope as detailed within this letter. This letter has been granted under the control of the nominated Quality Authority.

Contracts / Purchase Orders placed **directly** by the following BAE Systems – Air entities are not covered by this approval, as they operate to their own supplier quality approval process:

- BAE Systems Regional Aircraft (RA)
- BAE Systems Saudi Arabia
- BAE Systems Arabian Industries

In order to maintain this Supplier Quality Approval, you shall:

- Maintain your applicable external Quality certifications.
- Comply with BAE Systems Quality requirements and any other supplementary programme Quality requirements.
- Comply with Air Sector Quality Requirements - Standard Conditions for Purchase ([Air Sector suppliers](#)).
- Provide a timely response to any requests for information in support of this approval, including re-approval review. All documentation shall be provided in English.
- Communicate the requirements of this Supplier Quality Approval to all relevant areas within your company.
- Notify BAE Systems of any changes which may impact upon product / service Quality and / or qualification. These include, but are not limited to changes of:
 - Company name and / or address
 - Facilities and / or plant
 - Processing methods
 - Fit, form or function
 - Nominated Quality Authority

Failure to comply with the above requirements, BAE Systems reserves the right to suspend or revoke your Supplier Quality Approval at any time. Continued authorisation to receive BAE Systems Orders is dependent upon a demonstrable record of conformance against these requirements and satisfactory product quality performance.

Reviews of your QMS, product(s) and / or process(es) may be undertaken by BAE Systems authorised representatives (including customers / customer's authorised representatives and regulatory organisations) at any time. Please be advised that BAE Systems and their customers or their nominated representatives, reserve the right of access to facilities to review work being undertaken on behalf of BAE Systems.

The BAE Systems Quality Authority may require your company to undertake additional reviews, improvement, assurance, inspection or test activities addressing specific areas when circumstances so warrant (e.g. satisfactory product Quality performance levels not being achieved / maintained).

You are responsible for only accepting work which is covered by the scope of the approval detailed in this letter. Should your company be requested to undertake work for BAE Systems - Air which is outside the scope of your Supplier Quality Approval, you are required to notify the undersigned and not start any work until authorised in writing to do so.

Prior to starting any work, you shall conduct a review of all requirements and invoked documentation, including; drawings, specifications, standards, etc. If any requirements cannot be fulfilled, you shall notify your BAE Systems purchasing authority and seek written clarification prior to commencing any work.

Product / Service release documentation (normally a Certificate of Conformity) shall be provided with all deliveries and shall only be authorised by personnel holding the relevant authority. **Product / Service shall be released in accordance with your AS9100 approval release clause.**

Release documentation shall provide a means to ensure traceability of the product / service; this may be achieved through the provision of a unique reference number, lot traceability, internal works order number etc. Release documentation shall include comprehensive details of the subject supplies, including any applicable accepted / agreed limitations, qualification status, software status, concessions, production permits, shortages and work outstanding etc. applicable concession or production permit documentation shall be supplied with release documentation.

Where non-conforming or suspected non-conforming product or service has been delivered (including maintenance activities, training provision, technical documentation / information etc), your company is required to notify BAE Systems in the form of an Alert / Recall notice, Escape notice or a Supplier Disclosure letter and shall be signed by the Technical Authority and / or Quality Authority.

This shall be issued to the relevant purchasing authority immediately (no later than 48 hours) following identification of non-conforming product or service.

For the appropriate action to be taken and to ensure product safety is not compromised, the following information shall be included in the notification:

- Supplier / manufacturer's name & address; (including contact details)
- Part / drawing number and issue
- Description
- Serial / batch number
- Flight / operational / product safety criticality statement (where known)
- Export Control / ITAR Status
- Security Level (where a 'Protective' marking is required)
- Applicable BAE Systems programme
- Quantity
- Release documentation reference
- BAE Systems purchase order(s) / contract number(s)
- BAE Systems goods receipt note reference (where applicable)
- Delivery destination
- Delivery date
- Problem / deviation description
- Proposed containment, correction and corrective action
- Any other pertinent information that will enable timely recovery of the product / service including any return packaging needed (e.g. Special To Type Containers (STTC)) and any associated return item (e.g. Assembly components, mating parts)

The supplier shall ensure timely completion of all activities related to the Alert or Recall with all suspect or non-conforming product accounted for and / or disposed of appropriately as agreed with BAE Systems.

Where NDT activities are identified within your Scope of Approval, these activities shall be under the control of your nominated NDT Level 3 (approved by BAE Systems). Should you lose the services of your nominated NDT Level 3, you shall notify the BAE Systems Lead NDT Engineer at materials.governance@baesystems.com and nominate a replacement within 30 days, failure to do so may result in your Authority to undertake NDT activities being withdrawn.

Where it has been identified there is no longer a requirement to maintain your Quality approval, appropriate action shall be taken in conjunction with BAE Systems to facilitate supplier exit arrangements. Consideration needs to be given to the type of assets and artefacts which may require repatriation to BAE Systems including but not limited to:

- BAE Systems specifications
- programme Qualified Parts Lists (QPLs)
- drawings
- design data
- tooling
- equipment
- free issue product / material

In some cases, there may be assets or artefacts which do not require repatriation to BAE Systems but require appropriate disposal / destruction noting project security considerations; all disposal / destruction requirements shall be agreed with BAE Systems.

Should you have any queries regarding this Supplier Quality Approval, please contact the undersigned. A BAE Systems Certificate of Approval shall be provided to the Quality Authority upon request.

**Yours faithfully,
For and on behalf of
BAE Systems (Operations) Ltd**

**Jake Ferguson
